GREENTECH - OFFERINGS

At Greentech we believe that human potential is best unlocked through powerful and synergistic collaboration. This is the foundation of our partnerships with businesses, NGOs, governments, and individuals everywhere-*documenting, recognizing and rewarding best practices* in the areas of Environment Protection, Occupational Health, Fire & Safety, HR and CSR amongst India's ever vibrant corporate world. This is the basis of the coveted **Greentech Awards** in these four sectors that are now well on their way to the second decade of establishment.

Greentech Foundation collaborates with the business and development world seeking sustainable solutions that will lead corporate India and the society it functions within, from their current status to the potential they may achieve tomorrow.

Towards this end, Greentech Foundation has taken a lead role in forming and promoting symbiotic relationships between those who are passionate about bringing about change on the ground and those who have the means and resources to enable that change.

We are dedicated to analysing how work organizations can perform more effectively by better management of their resources-*understanding, identifying, and improving the effectiveness of corporate practices in the various functions and activities carried out as part of Sustainability, Safety, CSR and HR, and promoting Education, Training and Dissemination of knowledge* thereby advancing the scientific, technical and practical aspects in these areas.

Greentech Foundation's commitment towards creating a structured knowledge-sharing platform for companies, experts, leading players of industry and services to *exchange experiences and expertise for greater economic growth emphasizing on sustainability and innovation*, forms the basis of our knowledge and **Management Development Program series**. This series is a concentrated effort towards building capacity and executive enablement.

GREENTECH CONFERENCES & TRAININGS

- Seminars, Workshops and Exhibitions at National & International Levels.
- Educational training courses.

GREENTECH AWARDS:

Greentech Foundation has instituted these Annual Awards to recognize, reward and promote exceptional goals and all positive aspects in the field of Environment, Safety, CSR and HR. **Greentech Foundation** Award is a unique form of benchmarking the stringent quality standards, credibility and honoring the proactive practices of the awardees enhancing their esteem and global stature. It enhances corporate and individual image. **Greentech Foundation** awards have become **"The Most Admired and Top Honour "** in the corporate world in India. **Greentech Foundation** has vision to make it **"Globally Admired Top Honour"**.
